Business Credentials

- Certified Women-Owned Small Business (WOSB)
- NAICS: 541512 (Primary), 541511, 541519, 541611, 541990
- DUNS: 130001170
- CAGE Code: 45635

Contracting Vehicle

- GSA MAS (SINs: 5415S)
- Contract Number: GS35F257GA
- Period of Performance: 02/23/2017-02/22/2027

PAST PERFORMANCE

CMS MCD Search Enhancements
Inclined transformed Medicare's Coverage Database search with an AI-powered natural language tool that turns failed queries into fast, relevant results, dramatically improving usability and experience.

CMS Beneficiary Payment Validation
By replacing static, mainframe-era tables with interactive dashboards built through stakeholder-driven design, Inclined enabled CMS to generate accurate payment validation insights in hours instead of days.

CMS CCSQ Database Modernization
Inclined modernized CMS's legacy Medicare Coverage Information Management system into a secure, cloud-based, API-enabled platform that delivers high-availability, reliable performance, and continuous improvement.

CMS Model Validation Migration
Migrating model validation from costly mainframes to a cloud-based, parallelized rules-engine workflow, Inclined cut complexity, boosted performance, and saved CMS significant time and cost.

Risk Adjustment Data (RAD) Platform
Inclined re-engineered CMS's fragmented mainframe systems into a scalable, cloud-based RAD platform that lowers costs, enables advanced analytics, and expands functionality for a wide range of stakeholders.

CPI and MPPG Overpayment Runs
Inclined rebuilt CMS's overpayment models from first principles using cloud analytics, recovering hundreds of millions of dollars, pointing to policy savings in the billions, and increasing transparency.

CORE CAPABILITIES

Advanced Analytics
Turning complex data into actionable insights, helping agencies make smarter, faster decisions that drive measurable outcomes.

Human-Centered Design
Designing solutions around user needs, ensuring that government services are intuitive, accessible, and effective.

Digital Transformation
Modernizing legacy systems and processes to help agencies operate with greater speed, agility, and impact.

Health IT
Supporting mission-critical health programs with cutting-edge technology that improves care delivery and public health outcomes.

Cloud Migration
We guide secure, efficient transitions to the cloud—enabling scalability, resilience, and cost-effective performance.

Validation & Verification
Ensuring that systems perform as intended—on time, on budget, and in full compliance with mission requirements.
